### **DETAILED ACTION**

This Office Action is responsive to the applicant's amendment filed on November 23, 2004.

Claims 1, 7, 8, 13 and 15 have been amended. Claims 12 and 14 have been canceled. Thus, claims 1-11, 13 and 15 are pending in this application.

Applicant's cooperation in correcting the informalities in the drawing and specification are appreciated. However, a few minor informalities contain in claims 1, 7 and 13.

#### ***Specification***

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: "load magnification member" recited in claims 1, 7 and 13. Applicant should note that the subject matter needs to be incorporated into the specification and the drawings.

#### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Art Unit: 3748

Claims 1 and 13 recites the limitation "*the members*" in line 5. There is insufficient antecedent basis for this limitation in the claim.

Claims 1 and 13, the phrase "when a load of a predetermine value causes... predetermined amount" renders the claims indefinite, because it is unclear which a predetermine value of load/amount causes the first and second ring to move relative to one another, as applicants has claimed. Applicants should clarify/define the value is predetermined.

Claims 2-11 and 15 are rejected by virtue of their dependence on claims 1 and 13.

***Allowable Subject Matter***

Claims 1-11, 13 and 15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Prior Art***

The IDS (PTO-1449) filed on November 23, 2004 has been considered. An initialized copy is attached hereto.

***Response to Arguments***

Applicant's arguments with respect to claims 1-11, 13 and 15 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 3748

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
